

Please follow this steps:

1. When you are looking at your roster, click in the player name
2. In the next screen click in UPLOAD
3. Select the picture that you will use
  - The picture must be a jpg file
  - It must be no larger than 1Mb
  - Many phones make very large pictures so you might have resize it
4. This is the key, weird, non common sense step: immediately after selecting the picture click in SAVE CHANGES, which is at the bottom of the page, you need to scroll down a little bit.
5. That takes you to a view where you can crop the image.
6. Crop it as you see fits.
7. Click in SAVE PLAYER PORTRAIT
